DISTRICT SCHOOL BOARD

POLICY TITLE: SCHOOL FUNDS

Approved: March 25, 2009

Amended: March 20, 2019

POLICY NO: 4011

Page: 1 of 1

POLICY

In line with Our Mission, the Board is committed to the development of the full potential of each child. To that end, all partners expressly desire to live the values of Jesus. School funds have become an integral part of our efforts on behalf of the students. Changing attitudes in society require schools and school boards to be increasingly accountable for the use of these public funds. The Board has a mandated and fiduciary responsibility to ensure proper management of the funds to protect public trust. Funds are generated at the school level from a variety of different sources and used in a number of different ways to enhance educational programs and to support school initiatives.
