

Benefits of Advanced Placement

- AP students will master in-depth content at the university level more easily after completing AP courses in high school.
- AP course work exceeds proficiency in the specific subject area
- AP students acquire sophisticated academic skills and increased self-confidence in preparation for university.
- AP students develop habits and skills necessary for university-level work, learn to function both independently and collaboratively with other highly motivated and like-minded students.
- AP courses are recognized and accepted in 90% of Colleges and Universities in North America, Asia and Europe offering 35 exams in 20 subject areas.
- In 2020, over 4 million AP exams were administered
- 85% of Colleges and Universities look at AP experience when making scholarship decisions over non-AP students.
