POLICY

The Huron-Superior Catholic District School Board is committed to providing healthy school environments that enhance student learning, and promote social and emotional well-being. Our schools play an important role in helping students make healthier choices, in order to lead healthier lives.

The purpose of this policy is to set nutrition standards for food and beverages sold in the Huron-Superior Catholic District School Board elementary and secondary schools, as described in the *Healthy Food for Healthy Schools Act (2008)*, *PPM 150 – School Food and Beverage Policy (2010)* and the accompanying Procedural Guidelines. It reinforces the knowledge, skills and attitudes regarding healthy eating that are developed through various subjects in the Ontario curriculum.
